PROJECTS

Built an application for ordering items in any shop or restaurant etc.
Apr 2020 - May 2020

This application helps user to save time while ordering in any restaurant or purchasing anything from any shop.
Main perk of this application that, it reduces man power and saves time.

Dummy News Website
May 2020 - May 2020
https://arsh-dev.github.io/news/

This is a Dummy News Website, a basic task i have completed during the internship time.
This is done by HTML, CSS and JavaScript.

Website of Symphony Musicians
Oct 2019 - Nov 2019
https://symphonygwalior.blogspot.com

Designed a blog page / Webpage for Symphony Musicians and event organisers on blogers.com.

Breast Cancer Prediction
Jul 2019 - Aug 2019

In this project, we will import the data of patient and by using machine learning algorithms, we will test that data with the trained dataset and Predict whether the person/patient is infected or not.

Designed various webpages as a freelancer
May 2020 - Present
https://ayushrajsharma.000webhostapp.com/

I've designed many webpages/ websites with the help of HTML, CSS, JavaScript, Bootstrap, PHP, MySql, Wordpress.
Almost all are submitted. One of them as example is mentioned below. This won't define my skills, this is just a very basic webpage as eg.

SKILLS

Python
